Find Your Style

Your personal style is about bringing together the things you love to create a space you feel good in—colors that suit you, textures that catch your eye, details that you can't help but obsess over. There's no right or wrong way to remodel, so long as your home speaks to you and complements your lifestyle. The following pages are meant to inspire you. They explore timeless styles and current trends, each made unique through a collaboration with a Waypoint designer. Remodeling is part art and part science, so take note of what you love (and what you don't), and your designer is always there to help guide you each step of the way. We can't wait to see your vision come to life!

CREATIVELY CURATED

Create the Look

Anything goes in your colorful and eclectic home, with a mix of neutrals, textures, metal accents, and treasures from faraway places. For you, designing a space is not about adhering to a particular style, it's layering inspiring elements that speak to you in a way that feels curated, yet effortless. Whether you select cabinets in a dark or light finish or go with a pop of color, the juxtaposition of contrasting details all work together to tell your unique story.

DESIGN TIPS

It's all about contrast. Mix light wood and painted cabinets. Crisp white countertops with a colorful backsplash.

Metal accents or statement lighting adds a touch of modern glam.

Add greenery to freshen things up. Who doesn't love fresh flowers?

MODERN RUSTIC

Create the Look

Make yourself comfortable in your fresh and functional home that's brimming with charm. All the handcrafted details of an 18th century farmhouse, reimagined for today. Natural colors and warm wood tones make you feel grounded, while clean, modern accents suit your sophisticated side. When choosing a cabinet finish, consider lighter-painted neutrals and wood finishes, or mix and match both for a look that's both trendy and timeless. Every time you pull up a stool, you'll feel right at home.

DESIGN TIPS

Stick to neutrals. Creamy whites, warm grays, and woods in any finish mix well.

Modern, sleek cabinet pulls add a touch of elegance.

Consider open shelving to showcase woven baskets and ceramics.

HANDCRAFTED COMFORT

Create the Look

Relax while you take in all of the sophisticated charm of your beautiful home. Inspired by the French countryside, old-world craft meets modern luxury for a look that feels elegant yet unfussy. Details are everything, and your space has many—ornate tiles, raised mitered doors, and a simple vase with greenery or flowers all come together to personalize each room. Your cabinetry style tends to be more detailed and decorative, completed with antique pulls or knobs—it's the finishing touches that make you smile.

DESIGN TIPS

Adding decorative molding to cabinets takes any space from simple to sophisticated.

Balance ornate details with rustic elements for a true French countryside feel.

Warm woods, neutrals, and muted paint colors (like Painted Navy) all work well.

SIMPLE SOPHISTICATION

Create the Look

Quality is everything in your home, and you want a home that's built to last. To you, luxury is having exactly what you need to live comfortably—a functional place to have a nice meal with loved ones, a spot to unwind after a long day. Handcrafted details and strong materials work hard to give you a space that can take the wear and tear of everyday life. When it comes to your cabinetry style, it's simple, natural, and durable for a look that's not overly done—it's done just right.

DESIGN TIPS

Cabinets with clean lines and natural finishes work best.

Bring the outside in. Greenery, branches, and produce make great centerpieces.

Details like rustic pulls and a valance add understated sophistication.

Kick off your shoes and breathe easy in your crisp, coastal sanctuary, where comfort is a way of life. In your clean and neutral space, each day feels like a blank canvas, an opportunity to let the simple pleasure in and keep stress at bay. White shiplap panels, distressed wood, and open shelving create an atmosphere that feels effortless and unrushed. Consider Shaker or beadboard-style cabinets with matte black pulls to achieve this refreshing look that invites everyone who enters to relax.

DESIGN TIPS

Pull inspiration from the beach. Neutral colors, faded textures, natural wood.

Matte black hardware adds structure and character.

Consider open shelving to showcase stoneware and coastal treasures.

MODERN & MINIMAL

Create the Look

You see the beauty in simplicity, favoring clean lines, open spaces, and functional storage that gives everything a proper home. To you, design is more than choosing pretty paint colors and sleek fixtures. It's being mindful of how you use each space, and making choices that reflect a simple, classic life. Whether you favor light or dark cabinetry, it's the thoughtful layout and refined details that bring a feeling of zen to your everyday.

DESIGN TIPS

Consider slab-style cabinets with clean lines for a modern, classic look.

Accent with classic subway tiles or geometric patterned tiles for an unexpected twist.

Hints of wood add warmth such as furniture, cutting boards, or a butcher block countertop.

Working with a Waypoint Dealer

When it comes to remodeling, going the DIY route often leads to way more stress, money, and “do-overs” than you might anticipate. With a Waypoint designer, you can be confident that you have all the experience, resources, and products you need to help you see the potential of your space. Picturing your dream kitchen? Or a bathroom you never want to leave? If you can envision it, we can help make it happen. From inspiration to installation, our design professionals will help guide you through each step of the process to create a space you can’t wait to show off.

01

FIND YOUR STYLE

Modern, eclectic, minimal...what's your personal style? Pull inspiration from your lifestyle, everything from the way you dress to your favorite travel destinations, to help inform your vision for your home. And don't forget to take our online style quiz at waypointlivingspaces.com/quiz.

02

PLAN YOUR SPACE

Discuss your vision with your Waypoint designer. Think about how you live in your space and the things you need to store there. Pro tip: If your space needs appliances, buy them first! They will impact the overall layout of your space.

03

CHOOSE YOUR DETAILS

Options, options, options. From crown moldings to hardware to range hoods and more, there are so many ways to personalize your space and make it as stylish as it is functional. And you can feel good knowing every Waypoint cabinet has a limited lifetime warranty.

04

MAKE IT HAPPEN

You've made all the big (and small) decisions, from layout to door pulls. Now it's time to put your plan in motion. Forgo the stress usually associated with remodeling and let your Waypoint designer and cabinetry manufacturer manage your project from start to finish.

05

ENJOY AND CELEBRATE

There's nothing like that first meal in your new kitchen or the first soak in your new bathroom. Take a step back and enjoy the incredible transformation!

Prepare to Remodel

SEE THE VALUE

Before you begin your remodel, it's important to remind yourself that it's an investment. So while the process can be daunting, remember that even the smallest remodeling project can greatly improve your quality of life and increase the value of your home. Make sure to set a clear vision for what you'd like to accomplish and what you're willing to spend. A Waypoint designer can work with you to make the most of your budget and create a living space you'll love spending time in.

GO WITH THE FLOW

Let's be honest, as exciting as the prospect of a new kitchen or bathroom is, your remodel will be disruptive to your everyday routine for a little while. The good news is there are many things you can do to prepare such as set up a temporary kitchen, or designate a space for storing deliveries (see our Remodel Checklist for even more tips). Sure, there will be a few curveballs, but the more prepared you are, the better you can handle whatever comes your way.

INFORM FAMILY & NEIGHBORS

Setting expectations is key, so discuss the renovation process and approximate the duration of the project with your family. Let them know to steer clear of work areas, and walk through how they can use alternative areas of the home for their day-to-day needs. And don't forget to advise your neighbors of your project. Making them aware goes a long way toward having their support as you upgrade your new living space.

COMMUNICATE WITH CONTRACTORS

It's a good idea to communicate with contractors early and often. Your Waypoint designer will help lead the conversation and manage the project by setting a schedule, determining hours of work, and assisting with many important details along the way. Safety is paramount, so be sure to insist that workers put away all power tools at the end of each day. Don't be afraid to ask questions and be explicit about what you want—contractors are there to bring your vision to life.

Cabinetry 101

If this is your first remodeling project, you've likely never considered what kind of door style you like, or whether you prefer standard or full overlay. Have no fear, your Waypoint designer will walk you through all the options so you can personalize your space to your liking. To help you get ahead of the learning curve, we've laid out some cabinetry basics. Knowledge is everything!

CABINET DOORS TWO WAYS

STANDARD OVERLAY

Allows a 1 1/8 inch exposure of the cabinet frame, resulting in a more traditional look.

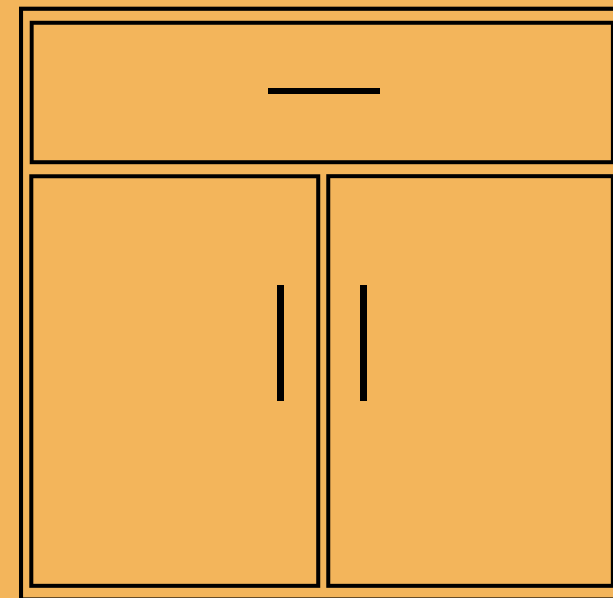

More Traditional

Reveals some of the cabinet frame.

FULL OVERLAY

Door and drawer cover most of the cabinet frame for a more seamless, modern look.

More Modern

Covers most of the cabinet frame.

THE WAYPOINT DIFFERENCE

All cabinets are made with quality materials and backed by a limited lifetime warranty.

A wide range of door styles, colors, finishes, and hardware to customize your space.

Sold exclusively through independent dealers and designers with remodeling expertise.

DOOR STYLES

Raised Panel

Cabinet door has a center panel that is higher than the surrounding wood for a more traditional look.

Recessed Panel

Cabinet door has a center panel that is slightly depressed. A beveled trim adds a touch of elegance.

Mitered Raised

Raised panel door joints are connected at a 45° angle, producing a seamless and elegant picture frame design.

Mitered Recessed

Recessed panel door joints are connected at a 45° angle, producing a seamless and elegant picture frame design.

Slab

Cabinet door is neither raised nor recessed and has no decorative elements for a modern, minimal look.

Shaker

Distinguished by a five-piece door with a recessed center panel. Modern with simple details that add interest.

TRANSFORM YOUR SPACE

Moldings

One of the easiest ways to transform your space from basic to beautiful is adding moldings. More than an architectural accent, they help define your space and make a bold statement, increasing the value of your home. From contemporary to traditional and everything in between, Waypoint has a variety of moldings to fit your style.

Combining separate molding pieces creates "molding buildups."

Different combinations create many different styles.
